Proposal Validation

- KC S2S keeps a running total of all errors and warnings.
- As you correct errors and warnings, the running total decreases.
- Proposals that are submitted with errors will be rejected by Grants.gov or the granting agency unless your opportunity specifically instructs you to the contrary.
- Be sure if you are submitting a proposal with warnings that you have determined the warning will not cause the proposal to be rejected or delayed by the granting agency.
- *Proposals should be submitted to DCG with NO Validation Errors.*

Proposal Validation

- Click the **Error/Warning/Info** button at the bottom of the proposal page to display more details.
- If you click the [linked text](#), KC S2S will take you directly to the field that is causing the message to appear.

Error (52) / Warning (6) / Info (2)	NIH
Error: [Cover Page Supplement 1.3] Applicant Organization Contact's Title is required	
Error: [Cover Page Supplement 2.4] Answer HESC involved question

Proposal Locking

- When you are working in a proposal, other users who can see that proposal will see the lock icon next to it in the Proposals List,  followed by your username.
 - This indicates that the proposal is locked and you are working in the proposal.
- Only users with the “Break Lock” permission for the proposal can open the proposal for editing when it is locked by another user.
- Others can open the proposal in read-only mode.
 - They will not be able to enter data or add attachments.

Breaking the Lock

- If you have “break lock” permissions, you can “take the lock” from another user working in the proposal.
 - This will cause them to lose any unsaved data.
 - Contact the user first if possible to ensure they have saved their work.
- 1. Open the proposal from the list using the read-only icon.
- 2. Click the lock icon at the top of the proposal.
- 3. Click OK in the dialog.

Break the proposal lock? Take write-access?

Do you really want to take over the lock for write-access to this proposal, currently held by user "Weaver, Stephen (sweaver)"?

If "Weaver, Stephen (sweaver)" has unsaved changes in another session then taking over the lock will cause those to be lost.
